

Geography

The children will learn about human and physical features in Egypt. Also, the children will learn about extreme weathers such as flooding, earthquakes and volcano eruptions.

History

The children will learn about Ancient Egyptian history with a focus on historical artefacts and understanding how life was different in the past.

RE

The children will learn about different milestones in religions and how they are similar or different. Children will explore how these milestones help to develop a diverse environment and reduce inequalities.

PSHE

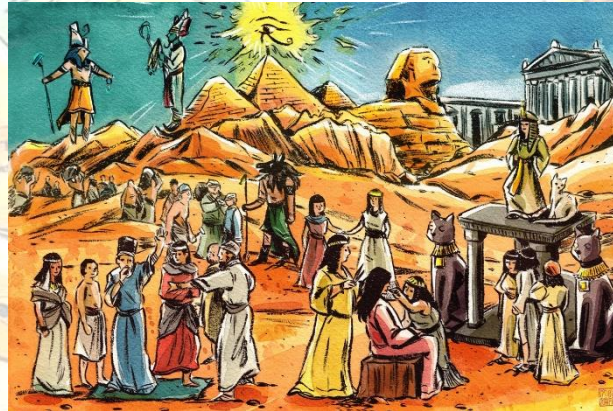

The children will learn about living in the wider world. They will look at different aspects such as the impact on refugees, civilians and children. Children will also focus on handling money.

MFL

The children will learn about the grammar and verbs in French and build their knowledge of words to have conversations.

Curriculum enrichment

The children will be immersed in Ancient Egyptian life throughout learning opportunities across the curriculum. Children will partake in Quest learning to gain a holistic approach to learning. We will create a final project using our Art, DT, Computing skills as well as our learning through the term.

Key texts

- Role play
- News bulletins
- Non- chronological report
- Instructions
- Diary – in the life of
- Explanation texts

Autumn Term - Ancient Egypt

Science

The children will learn about animals including humans and how the human eye works. The children will focus on evolution and how nature has evolved based on adaptation.

Computing

The children will learn to create games using different software including Python. In addition, the children will develop the skills to create a website online.

Design and Technology

The children will learn about Egyptian mummies and how museums create replicas using 3D modelling. The children will create their own replica of Tutankhamen's mummy.

Art and Design

The children will focus on the artist Henri Moore. The children will explore sketching skills and then focus on his sculptures using clay to recreate his famous works.

PE

The children will learn about the invasion game of tag rugby and which skills are needed to play. In addition, the children will build up their dance skills and knowledge.
